
TABLE OF CONTENTS

1.0 PURPOSE AND SCOPE	1
1.1 PURPOSE	1
1.2 SCOPE	1
2.0 REFERENCED PUBLICATIONS	1
3.0 DEFINITIONS	1
4.0 PERSONNEL SAFETY	2
5.0 INTRODUCTION	2
5.1 IDENTIFIED RISK AND NEED TO MITIGATE	2
5.2 TYPES OF FACILITIES ADDRESSED	3
5.3 ELECTROSTATIC CONTROL IN HEALTHCARE FACILITIES IS CONSISTENT WITH THE GOALS OF EVIDENCE-BASED DESIGN (EBD) CONCEPTS	3
6.0 WHAT CAUSES ELECTROSTATICS IN HEALTHCARE FACILITIES	4
6.1 PATIENT RISKS OVERVIEW	4
6.2 RISK ELEMENTS.....	5
6.3 VOLTAGE LEVELS OF CONCERN IN A HEALTHCARE ENVIRONMENT.....	6
7.0 MITIGATION STRATEGIES	7
7.1 PREVENTING ESD	7
7.2 PREVENTING ESA	8
8.0 SPECIFIC HAZARDS OF ELECTROSTATICS IN HEALTHCARE FACILITIES	8
8.1 DAMAGE AND LOSS OF FUNCTION TO EQUIPMENT DURING PATIENT CARE	8
8.1.1 <i>What is the Risk of Electrostatic Discharge-Induced Equipment Failure</i>	8
8.1.2 <i>What Causes Electrostatic Discharge-Induced Equipment Failure</i>	9
8.1.3 <i>Where are Electrostatic Discharge-Induced Equipment Failures a Problem in Healthcare Facilities</i>	10
8.1.4 <i>Mitigation for Electrostatic Discharge-Induced Equipment Failures</i>	10
8.2 ELECTRONIC RECORD CORRUPTION.....	11
8.2.1 <i>What is Electronic Record Corruption</i>	11
8.2.2 <i>What Causes Electrostatic Discharge-Induced Record Corruption</i>	12
8.2.3 <i>Where is Electronic Data Corruption a Problem in Healthcare Facilities</i>	12
8.2.4 <i>Mitigation of Electronic Data Corruption</i>	12
8.3 SHOCKS TO PERSONNEL	12
8.3.1 <i>What is the Nature of Shocks to Personnel</i>	12
8.3.2 <i>What Causes Shocks to Personnel</i>	13
8.3.3 <i>Where are Shocks to Personnel a Risk in Healthcare Facilities</i>	13
8.3.4 <i>Mitigation of Shocks to Personnel</i>	13
8.4 CONTAMINATION CAUSED BY ESA.....	14

8.4.1	<i>What is Contamination Caused by ESA</i>	14
8.4.2	<i>What Causes Contamination by ESA</i>	14
8.4.3	<i>Where is Contamination by ESA a Risk in Healthcare Facilities</i>	15
8.4.4	<i>Mitigation of Contamination by ESA</i>	15
8.5	IGNITION OF FLAMMABLE MATERIALS	16
8.5.1	<i>What is Ignition of Flammable Materials</i>	16
8.5.2	<i>What Causes Ignition of Flammable Materials</i>	16
8.5.3	<i>Where is Ignition of Flammables a Problem in Healthcare Facilities</i>	16
8.5.4	<i>Mitigation of Ignition of Flammables</i>	16
9.0	HAZARDS AND CONTROLS BY AREA	17
9.1	PUBLIC SPACES AND WAITING AREAS	17
9.2	ADMINISTRATIVE AND OFFICE AREAS	17
9.3	SERVER ROOMS AND DATA CLOSETS	18
9.4	CLINICAL EXAM	18
9.5	PATIENT WARDS	18
9.6	ACUTE CARE WARDS	19
9.7	DIAGNOSTIC TESTING AND IMAGING	20
9.8	SURGICAL AND OPERATING ROOMS	20
9.9	LABORATORIES	21
9.10	PHARMACIES	21
9.11	SUMMARY TABLE OF RELEVANT HAZARDS AND SUGGESTED CONTROL MEASURES	22
10.0	ELECTROSTATIC CONTROL PLAN	25

Annexes

Annex A (Informative):	Mitigation Measures	26
Annex B (Informative):	Sample Electrostatic Control Plan	39
Annex C (Informative):	Fundamentals of Electrostatics	45
Annex D (Informative):	Electrostatic Control Levels in Healthcare Facilities	51
Annex E (Informative):	Electromagnetic Interference (EMI)	53
Annex F (Informative):	Bibliography	54
Annex G (Informative):	Revision History for ESD TR29.0-01	56

Tables

Table 1:	Examples of Static Generation Voltage Levels	6
Table 2:	Human Perception of ESD/Shocks	6
Table 3:	Voltage Levels of Concern in a Healthcare Environment	7
Table 4:	Standards for Controlling Flammables Ignition	17
Table 5:	Summary of Relevant Hazards and Suggested Control Measures	23
Table 6:	Flooring Materials Comparison	31
Table 7:	Minimum Ignition Energy Required to Ignite Materials	52

Figures

Figure 1: Common Sources of Static Charges in a Healthcare Environment 4

Figure 2: ESD and ESA are Hazards in Healthcare Facilities..... 5

Figure 3: Three ESD Threats; Current Pulse, Direct EMI, Secondary EMI 10

Figure 4: Comparison of Clean and Charged Catheters 14

Figure 5: Raised Access Flooring System 29

Figure 6: Materials Making Contact..... 45

Figure 7: Material Separation and Electron Transfer 45

Figure 8: Surface of Tribocharging Materials 46

Figure 9: Triboelectric Series..... 47

Figure 10: Charge Separates When Low Conductivity Liquids Flow Through Pipes and Fill a
Tray or Bottle 48
