

EOS/ESD Association, Inc. PROFESSIONAL CERTIFICATION

Program Manager Certification

EOS/ESD Association, Inc. offers a professional certification for ESD control program managers. This program is intended for individuals who are involved in designing, implementing, managing, and auditing ESD control programs in their facilities.

BENEFITS TO THE INDIVIDUAL

- Demonstrates knowledge, experience and competency.
- Encourages self-development and continuing education.
- A check in the "plus" column in performance reviews, career advancement, and new employment opportunities.

BENEFITS TO EMPLOYERS AND INDUSTRY

- Helps raise the overall competency level of the entire ESD control field.
- Provides a means to assess the qualifications of personnel hired to work in static control.
- Helps assure that the industry has properly trained and qualified personnel helping solve ESD control problems.
- Helps prepare companies for ISO 9000 audits if professional certification is part of a company's formal program.
- Improves seller-buyer relationships through better communication with fewer misunderstandings.

REQUIREMENTS

- Begin official file with ESD Association Headquarters (see registration information www.esda.org/programmanager.html)
- Complete pre-requisite courses
- Pass an in-depth examination
Note: If passing criteria is not met for one or more sections, you will need to attend the applicable tutorials before retaking the exam.
- Maintain certification with continuing education

PROGRAM MANAGER CURRICULUM
