

2025 International ESD Workshop (IEW) Announcement and call for posters

Monday 12 May – Friday 16 May 2025

Hotel Dubrovnik, Gajeva ulica 1, Zagreb, Croatia

Abstract Submission

18 November 2024

www.esda.org/events/2025-international-esd-workshop-iew-europe

Focus topics

- IC design
- Chiplet-level ESD
- Chip-level ESD
- System-level ESD
- EDA
- Automotive
- Failure analysis
- Testing
- Advanced technologies

Other submission topics

- ESD control and process assessment
- Novel ESD protection circuits
- ESD circuit simulation/modelling
- Physics of ESD
- Novel ESD testing methods
- Technology integration for ESD
- Electrical overstress (EOS)
- Correlation between EMC and ESD
- Statistical ESD data

Workshop description

In its 18th year and in collaboration with the EOS/ESD Symposium, the International ESD Workshop (IEW) offers a relaxed setting for presenting new work and discussing Electrostatic Discharge (ESD) and Electrical Overstress (EOS) issues. Next to tutorials and seminars, this time there will be a greater focus on discussion groups and invited speakers. Technical sessions include five-minute teaser presentations followed by interactive poster discussions.

Submission guidelines

Submission instructions and an abstract template are available online. The abstract submission is in a format of maximum 6 presentation slides. The published proceedings of IEW will include the poster title, authors and text abstract only. The posters and slides themselves will not be published. Last minute walk-on posters are also permitted at IEW, with no peer review and no five-minute teaser presentation.

Important dates

18 November 2024 - Abstract Poster Submission

16 December 2024 - Notification of Acceptance

7 April 2025 - Final Poster Due

Location

- Zagreb, capital of Croatia
- Hotel Dubrovnik, at the main square
- 20 minutes from international airport
- www.hotel-dubrovnik.hr
